The launch of the Community Hub!

2020-10-19 - James Mact - Comments (0) - Product

We are pleased to announce the launch of our Community Hub!

This is an interactive area of the matters+ Help Center where registered users will be able to submit feature requests, wider product suggestions and bug reports.

Once received, the matters+ support team will review your submission. Registered matters+ users are able to subscribe to any Community section as well as commenting on the content.

We look forward to hearing from you!
